## CABIN BAGS NEW POLICY

From 10th February, all customers will be allowed to bring one cabin bag on board that must fit under the seat in front of them.

Only customers who have purchased an Up front or Extra legroom seat will be able to take a large cabin bag on board (max. 56 x 45 x25 cm), which must fit in the overhead locker.

easyJet Plus cardholders and W fare class (Flexi) customers will continue to have an additional large cabin bag included in their booking.

## GOING LIVE AT BOARDING GATES FROM 10<sup>TH</sup> FEB 2021

## Why are we making a change?

Our new policy will ensure our customers have certainty of what they can take on board. It also strives to reduce queueing time during boarding and other associated delays which occur due to putting excess cabin bags in the hold, and effectively lead to improved punctuality for all customers.

The size of easyJet's small under seat and large overhead cabin bags remains the same and among the most generous for air travel and we will continue to offer an unlimited weight for all cabin baggage.

## How will bookings made via GDS / SBT be affected?

We will be communicating with all GDS and SBTs to advise them of the change before February, so that bookers will have access to the latest information on cabin baggage allowance.

Customers who don't get a chance to book a W fare class (Flexi) or select a seat at time of booking will be able to upgrade to an Up front / Extra legroom seat (or add their easyJet Plus card) at time of check-in on easyJet.com and via the mobile app to be able to take a large overhead cabin bag (56x45x25cm) with them into the cabin.
