

MOBILE APP

Wherever you're going, take us with you

easyJet just got easier with the FREE easyJet app. No matter how your flight was booked you can now manage your travel plans all in the palm of your hand. Accessing your travel information on the go has never been so easy!

What can you do with this app?

- > **Book flights**
- > **Choose your seats**
- > **Check-In:** View your easyJet travel details. Add your passport details, disruption management, view all your bookings and more...
- > **Add flight options:** Want to add bags or sports equipment? You can do all that up to 2 hours before the original departure time of your flight
- > **Track flights:** Check the latest information about your journey, flight disruptions and more. And if you're picking up a friend, relative or business partner from the airport, you'll have the most up to date flight information in your hand.

Mobile Boarding Passes

- > Mobile boarding passes make travel easier by allowing you to keep all your travel information in one place. No more paper, searching for a printer or worrying if you have ink in the printer! All you have to do is check-in and download your boarding pass on your mobile device.
- > Your mobile boarding pass is now saved and ready to be scanned in the Bag Drop area, security checkpoints and gate, and presented when boarding the aircraft. It's that simple!

Where can you use Mobile Boarding Passes?

- > Mobile check-in and mobile boarding passes are available for all flight departures from more than 110 airports across our network.

Some useful Tips

- > Check-in on your mobile or PC and then simply download the boarding pass to your mobile
- > Add your easyJet boarding pass to Passbook (iOS 6 and above users only).
- > Check-in up to two hours before you fly.
- > If you've only got a cabin bag, just go straight to security and onto your gate.
- > Mobile check-in works for your own bookings and those made for you by others, just login or 'add a booking'.
- > No need to have an easyJet account.
- > See which flights you still need to check-in for.
- > No need for a network or internet connection to access your boarding passes, once downloaded they're stored offline. So no roaming charges.
