

# TOURIST TAX

Tourist taxes may apply when staying in some cities or countries. Usually these taxes contribute to the local infrastructure and tourism development and are payable locally when checking into your hotel. The amount due will vary between countries (and sometimes regions or cities within each country), and is normally dependent on the type and official rating of accommodation and the length of your stay. Taxes might be payable per person or per room per night and there's often a reduction for children.

Tax amounts are a guide only [correct at 6<sup>th</sup> November 2020] and subject to change without notice.
